TRISTAR

Quality shouldn't be a luxury

OUTDOOR
LIVING
2012

By offering design, high grade and easy to use products at a fair price we make quality accessible for everyone.

Tristar products are designed to make consumers lives better, easier and more fun in everyday ways that matter. We offer a wide range of products, with various designs and prices, ranging from the basics to the latest innovations. It includes the categories Home Appliances, Sound & Vision and Outdoor Living and offers over thirty different product groups; from personal care to funcooking, from TV's to headphones and from BBQ's to outdoor furniture. Through this assortment we are able to make great products available to everyone.

We are always on the lookout for contemporary products that are attractive and appeal to a wide audience, making sure that we pay special attention to price and quality. It must be possible for everyone to buy a Tristar product, because we are guided by the core belief: Quality Shouldn't Be a Luxury.

Our Brand Values

Tristar is still growing and developing; we owe this growth and the results of recent years to our common sense and our brand values: Tristar is Accessible, Reliable and Entrepreneurial. This means our customers' needs will be answered with flexible, customized solutions, we offer quality in our products and service and we are always looking for new opportunities, new markets and new possibilities to make this quality accessible for everyone.

Proud to be a BSCI member

We want to offer our products at a good price, but of course never at the expense of our workers or the environment. Therefore we follow the BSCI (Business Social Compliance Initiative) code of conduct. The BSCI is an independent, non-profit organization whose goal is to improve the social and working conditions of employees throughout the supply chain.

Dear Customer

The line between indoor and outdoor is fading; our gardens and patio's have transformed into outdoor living rooms. We have got lounge sets with comfortable pillows; we cook and eat outside and thanks to heating solutions such as patio heaters, we can extend the outdoor season for as long as we like. Following this trend, our assortment has evolved and our focus has shifted in recent years. We have introduced new product groups and are now offering much more than a camping range alone. These developments have made us decide to re-name the range we previously called: outdoor, into Outdoor Living. As always, our assortment varies from the basics to the latest innovations.

Camping furniture

Our camping furniture range consists of solid camping chairs, luxurious camping beds and high quality foldable tables, offering something for everyone who wants to spend time outdoors.

Bio-ethanol fireplaces

No outdoor living room is complete without a bio-ethanol fireplace. Bio-ethanol fireplaces and lanterns are growing more popular every year. It is save, easy, environmental friendly and brings a great atmosphere to every living space. For this reason we have extended our range with several models in a range of sizes; from small table models to full size fireplaces. Our bio-ethanol fireplaces look great outside, but because they don't produce any smoke or smell they can easily be used inside too.

Outdoor cooking

We offer products for people who love cooking outdoors, whether it is on the campsite – where our gas stoves come in to place perfectly – or in your own garden. We offer everything; from portable barbecues to complete outdoor kitchens.

Home Appliances and Sound & Vision

Besides our non- electric outdoor products we offer a wide range of small domestic appliances and consumer electronics. These products can be found in our Home Appliances and Sound & Vision catalogs.

Our Home Appliances range for 2012 holds a large range of small domestic appliances, suitable for outdoor use. You will find low wattage kettles, ovens, sandwich makers, coffee makers and much, much more. Our ranges of cool boxes, air conditioners, refrigerators and fans can now also be found in our Home Appliances catalog.

In addition, we offer a large range of consumer electronics, suitable for outdoor use. During this year our Sound & Vision range grew rapidly and with it did the amount of outdoor products within this range. Our Sound & Vision range now holds several LED and LCD + DVD televisions in different sizes, radio- CD-players in all colors, portable DVD-players and headphones – ideal for on the road!

Our three ranges offer everything you could ever need on the campsite, in your garden or on the road, including some surprisingly innovative products. We are convinced it suits all your needs and wishes.

We invite you to browse through this catalog and discover our Outdoor Living range for 2012.

Kind regards,

Wout Jan Wessels Boer
Managing Director Tristar Europe B.V.
